Made-to-measure in a choice of design and to any size* – maximising design flexibility.

Manufactured using fully welded VEKA profiles to ISO 9001 QA standards and independently assessed to BS7412 – ensuring ultimate quality.

Wide variety of colours including brilliant white and anthracite grey as well as traditional woodgrain effect golden oak and rosewood.

Can be different colours inside and out.

All profiles reinforced for increased strength.

Splayed sightlines to maximise visibility.

Internal bevelled / sculptured glazing beads to enhance security and appearance.

Fully welded EPDM weather seals in frame and sash to give extra cover and improved performance.

Stainless steel friction stay hinges with optional 90 opening to facilitate external cleaning / maintenance and optional 'fire escape' feature for improved safety.

Espagnolette locking system with sliding 'mushroom' cams to provide added security.

Single, lockable, handle operation for easy opening and enhanced security.

Lockable night ventilation position.

Trickle ventilator with canopy providing controllable ventilation.

Five-chambered profiles making the window more energy efficient as well as providing internal drainage to maximise weather tightness and prolonging the life of the glazed units.

Factory glazed with Low-E argon filled double glazing units providing an excellent U-value.
