

uPVC Tilt & Turn Specification

Click to enlarge

Made-to-measure in a choice of design and to any size* – maximising design flexibility.

Manufactured using fully welded VEKA profiles to ISO 9001 QA standards and independently assessed to BS7412 – ensuring ultimate quality.

Choice of white and cherrywood or rosewood effect finishes.

All profiles reinforced for increased strength.

Splayed sightlines to maximise visibility.

Internal sculptured glazing beads to enhance security and appearance.

Fully welded EPDM weather seals in frame and sash to give extra cover and improved performance.

Espagnolette lock/hinge operating system providing a 'tilt' position for ventilation and an inward opening 'turn' position for external cleaning/ maintenance and escape in the case of fire.

Single, lockable, handle operation for easy opening and enhanced security.

Trickle ventilator with canopy providing controllable ventilation.

Five-chambered profiles provide internal drainage which maximises weather tightness and prolongs the life of the double glazing units.

Factory glazed with Low-E double glazing units providing excellent U-value.

*Subject to standard industry design parameters
